Dear Parents and Supporters

Glenwood High School Business Hub

Glenwood High School is proud to announce the launch of the Glenwood High School Business Hub. Through the sharing of our wealth of connections, the club aims to provide business support to Glenwood Old Boys, Parents of current pupils and the school itself. The fact we have a common sense of community and pride will give this networking association the edge over other networking groups.

With a history extending back to 1910, Glenwood High School is part of Durban's history and has produced countless Old Boys, many of whom are themselves a significant part of South African history and culture. Each pupil who leaves Glenwood has a wealth of established and often life-long relationships, and many of these Old Boys set root in Durban, becoming part of Durban's business hub. Added to this are the large number of parents who have wisely chosen Glenwood High School to educate their children and further to this are the large Staff at Glenwood High School. Added together this is a significant number, who, if working together, can only grow from strength to strength.

The club is for all Glenwood Old Boys, the parents of current pupils and Staff. The successful implementation of this project will lead to a Glenwood Green Pages concept that has been spoken about for a few years now.

How it works:

- Annual membership fee of R200.00 for each company represented.
- Company details and services offered will be displayed on the school's website.
- Donation to be made to the school for any referral business that is derived from an old boy or parent.
- The value of the donation is up to member's discretion.
- Donations must be made with "Business Hub" as the payment reference.
- All funds generated form part of the school's annual fund raising.

Enquiries.
